HAVING REGARD TO the Regulation for 1<sup>st</sup> and 2<sup>nd</sup> level Specialising Masters, Post Graduate Courses and Continuing Education of Politecnico di Milano issued with Rector's Decree no. 0227162 of 04.10.2022;  
HAVING ACQUIRED the favourable opinion of the Academic Senate during the meeting on 19.02.2023, on the establishment and activation of proposals for Specialising Masters, including the first level Specialising Master in "CONTRACT, CLAIM, AND DELAY MANAGEMENT IN CONSTRUCTION WORKS"

### DECREES

that the first level Specialising Master in "CONTRACT, CLAIM, AND DELAY MANAGEMENT IN CONSTRUCTION WORKS" is established and activated for the years 2024/2025.

#### **ART. 1** **Master's features**

The first level Specialising Master in "CONTRACT, CLAIM, AND DELAY MANAGEMENT IN CONSTRUCTION WORKS" has been set up and activated at the Department of Architecture, Built Environment and Construction Engineering.

The Master is provided by CIS-E Consortium (Consorzio CIS-E). The reference school is the School of Architecture, Urban Planning and Construction Engineering.

The Specialising Master's Director is Professor Gianandrea Ciaramella. The Vice Director is professor Pietro Giuseppe Crespi.

The Scientific Committee of the Specialising Master's programme is composed by Professors from Politecnico di Milano: Gianandrea Ciaramella, Pietro Giuseppe Crespi, Davide Manca, Giancarlo Paganin; by Marco Padovan from Studio Legale Padovan; by eng. Pierino Guana from ANIMP Servizi; and by eng. Giovanni Franchi from Consorzio CIS-E

#### **ART. 2** **Educational objective and employment opportunities**

The need for technicians (engineers and/or architects) who become skilled in managing contracts and claims, and who can perform a delay analysis in accordance with established international standards is ever more urgent among the most important general contractors in Italy and abroad. Our globalized world requires that professionals involved in managing claims, construction contracts and disputes could master complex technical issues and at the same time be conversant with all the legal aspects involved. It is crucial for the professionals who have a technical background to become acquainted with the "rules of the game" on the international arena. Therefore, they should get to know the basic principles of Civil and Common Law as well as of International Arbitration together with the most common standards for international contracts (FIDIC, JCT, NEC, AAA) and

the many complex technical and legal issues standing behind delay analysis and construction claim management. They should get to know how to deal effectively with the most important stakeholders in any international construction project: international owners both private (developers, foundations, real-estate funds, etc.) and public (governments, public authorities, etc.), engineering firms, general contractors and suppliers, banks, investment funds and sovereign funds. During this specializing Master our alumni will get to know the basics of forensic engineering in international projects: from claim to dispute, dispute boards, arbitration, with a specific focus on the ICC arbitration rules but also on the Milan Arbitration Chamber rules and practices. At the end of this Master the students will be qualified to work for: Developers, Foundations, Real Estate Funds, Governments, Public Authorities, Engineering firms, General Contractors and suppliers, Banks, Investment Funds and Sovereign Funds.

**The Master will be delivered in English and students can choose to attend the course online.**

### ART. 3 Teaching content and organisation

The Specialising Master's will start in **October 2024** and will end in **October 2025**.

The Master will offer the opportunity of a stage (550 working hours) in some renowned firm: many large general contractors, engineering firms, and producers have already confirmed to us to be extremely interested in employing technicians equipped with the set of skills the Master will provide.

The master's is a **60 ECTS** programme and teaching will be organised as follows:
